Plants That Grow

DELPHINIUM (See Page 14)

Rasmussen's Fruit Farm and Nurseries
OSHKOSH, WISCONSIN

1928

TO OUR FRIENDS AND CUSTOMERS

 N presenting our 1928 catalog we feel that we are offering you a complete but not overfilled, up-to-date list of trees, shrubs, vines, perennials, small fruit plants, etc. Our catalog covers a superior line of plants, varieties which according to trials in our gardens have proved to be as good as the best and better than many items usually catalogued. Each year the list is revised, being supplemented by newer better kinds of plants and omitting those which have been surpassed.

Our constant aim is to give you the best stock obtainable, only first class live strong plants being sent out on orders. You who have given us your business in the past know the quality of goods we ship and what our service is. With better facilities for growing and handling we believe we are now able to give better service than ever before.

WE GUARANTEE all plants to be true to name and to reach you in good growing condition, but we will not, in any case, be responsible for more than the purchase price. If you are not absolutely satisfied, we will cheerfully rectify any mistake, providing we are notified upon receipt of goods.

SHIPPING—Small orders are usually shipped parcel post prepaid at catalog price, unless we are otherwise notified. Shrubs, however, as well as trees and other large plants are shipped by express where possible. Better, stronger plants can be shipped this way and condition upon arrival is better. All orders are packed with plenty of damp moss to protect roots and no harm will result where plants cannot be planted immediately, in this case be sure to keep moist and cool.

Visitors are welcome at all times to our nurseries. Come and see us during the spring or summer when the roses, shrubs and perennials are in bloom. This gives you an opportunity to study and select the kinds of plants you want. You will find us ready at all times to help you with your planting problems, offering helpful suggestions wherever we can. That's what we're here for.

SHADE TREES

	Each
ELM, ASH, MAPLE	
6 to 8 ft.	\$1.00
8 to 10 ft.	1.25
1½ in. stem	1.50
2 in. stem	2.50
2½ in. stem	3.50
BIRCH, AMERICAN WHITE	
5 to 6 ft.	1.00
6 to 8 ft.	1.75
BIRCH, CUT-LEAF WEEPING	
5 to 6 ft.	3.00
6 to 8 ft.	4.00
MOUNTAIN ASH, EUROPEAN	
5 to 6 ft.	1.50

MAPLE SCHWEDLERİ—RED MAPLE—WHIPS	2.50

We have other trees not listed above including Basswood, Willow, Thornapple, etc.

If shade trees are wanted in quantity write for prices.

EVERGREENS

The planting of Evergreens has become very popular in the past few years. They have helped to create beautiful environment for the home that will be a pride and joy with the passing years. The proper placing and planting of Evergreens require perhaps more care and forethought than do any other plantings. We have a choice assortment of Evergreens for all purposes including all the popular types and varieties such as pine, spruce, arbor vitae, etc. We do not catalog these individually but will be glad to quote prices on any quantity, variety or size you may want. Write and tell us your needs. Do not hesitate to ask questions. We may be able to help you avoid errors so common in the planting of these beautiful trees.

APPLE TREES

Our trees are of the best size for planting, two and three years old, well branched, with good roots. We especially recommend the McIntosh Red. We believe it will be the leading variety for Wisconsin. It is a highly colored, fine flavored apple, and always commands a top price.

EARLY VARIETIES—Early Harvest, Yellow Transparent, Red Astrachan, Duchess.

FALL VARIETIES—Dudley, McMahon, Wealthy, Hibernal, Wolf River.

WINTER VARIETIES—McIntosh Red, Fameuse (Snow), Northwestern Greening, Golden Russet, Salome, Jonathan, Tolman Sweet, Delicious, Winesap, Baldwin.

CRABAPPLES—Whitney No. 20—Early, fine for pickling and eating.

Hyslop—Late, dark red, for jelly and pickling.

Prices of all apple trees: \$1.00 each, \$10.00 per dozen.

If larger quantities are wanted write for special prices.

CHERRY TREES

Two and three year old, well branched, well rooted.

Montmorency (the best), Early Richmond, English Morello, May Duke (sweet), Gov. Wood (sweet).

Price of all cherry trees: \$1.00 each.

PEAR TREES

Two and three year old, well branched, well rooted.

Flemish Beauty, Bartlett, Clapp's Favorite, Kieffer.

Price of all pear trees: \$1.25 each.

PLUMS

HANSEN HYBRID — The fruit tree for the small garden.

Very hardy in any part of Wisconsin. Fruits first season.

Fine fruit, either fresh or for canning and jelly.

Kahinta—Large red skin, yellow flesh, sweet.

Opata—Red skin, green flesh, small pit. Very popular.

Sapa—Dark red, excellent fresh or preserved.

Tokata—Large, red skin and flesh.

MINNESOTA HYBRID — New Minnesota plums, desirable for both home and commercial use. All are good sized varieties, highly colored, of good quality and are perfectly hardy; come into bearing quickly.

Mendota—Very large, bright red, fine quality.

Red Wing—Good sized, red. One of the best for all purposes.

Tonka—Very sweet and juicy, bright red, stone small.

Underwood—Season early, fruit reddish yellow, very fine.

OTHER VARIETIES

Abundance—Japanese. Red.

Burbank—Japanese. Large red.

Green Gage—European. Greenish-yellow.

Lombard—European. Reddish purple; prolific yielder.

October Purple—European.

Price of all Plum Trees: \$1.00 each.

STRAWBERRIES

The New OSHKOSH

*'Not an old strawberry under a new name, but a new
decidedly better berry'*

Our fields of OSHKOSH strawberry have proven again in 1927 that they are far superior to anything we have yet seen in the strawberry world. Their extraordinary color and flavor, their habit of producing large uniform fruit over a longer season, all combine to give the OSHKOSH first place among good strawberries.

Visitors at our farms last summer showed great interest in a plot of OSHKOSH which demonstrated its superiority over other varieties nearby. Its outstanding features in the field are its vigorous growth and heavy bright glossy green foliage. We have grown many varieties of strawberries and during several years have excluded all but Senator Dunlap and Warfield, as these two seemed to give better general satisfaction. But we are now convinced that we have a better berry for either the home garden or extensive commercial planting than anything we have previously grown.

Ripe fruit of the highest quality may be harvested several days in advance of Dunlap and Warfield. The OSHKOSH is a heavy yielder throughout the season and continues to bear for a longer period because of the fact that its late blossoms do not blight as is the case with the Dunlap and many other varieties but instead produce berries practically as large as the earlier ones. The value of this unusual feature will be recognized by every strawberry grower as it is the first and last berries that materially increase the income or profit.

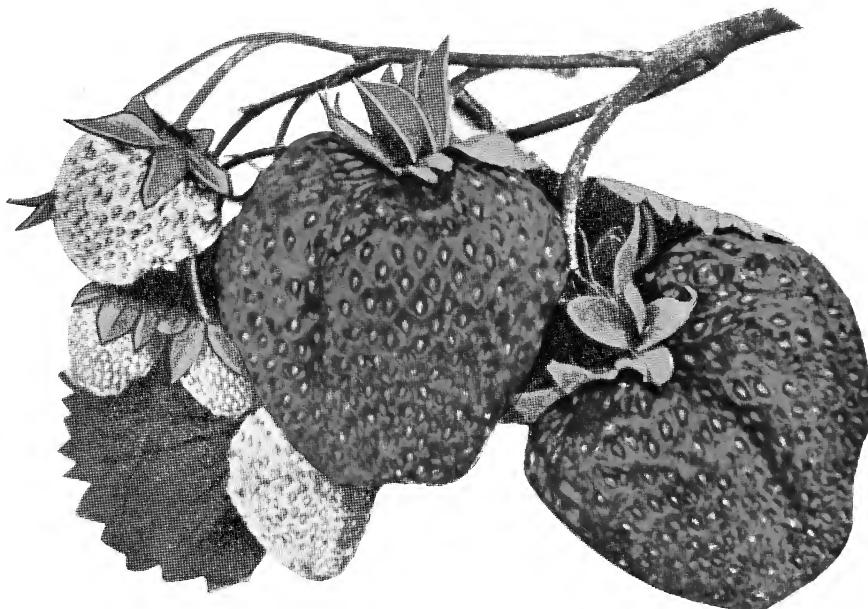

The fruit is of fine texture, dark red color and is firm. It is of better flavor, somewhat sweeter, and fully as large as the Senator Dunlap. The plant is a strong vigorous grower, deep rooted and has bright healthy foliage. Like the Dunlap it is a perfect flowering strawberry and may be successfully grown when planted alone.

The OSHKOSH strawberry was originated by Mr. H. C. Christensen, an Oshkosh gardener who has made strawberry growing a life study. Mr. Christensen has been prominent in the development of Horticulture for many years. It was he who introduced the 'Oshkosh' pepper which now heads the list of commercial peppers offered by some of the leading seed houses in the United States. Mr. Christensen considers the OSHKOSH strawberry the finest and most satisfactory both for grower and consumer ever placed on the market.

This strawberry has been tested under various conditions during the past several years with perfect satisfaction in every instance. There is no doubt when its merits become more generally known it will top the list in the strawberry world.

This is the second season we have offered the OSHKOSH strawberry, it having been introduced by us last year. Our supply of plants is considerably greater than last season's, but judging from last year's sales, and the remarkable showing our OSHKOSH field made the past year, we would suggest that you place your order for plants early.

We pack only good strong plants and ship within 24 hours after digging. We grow the Warfield, Senator Dunlap and OSHKOSH exclusively and recommend them for commercial and home use anywhere in this section of the country.

THE OSHKOSH STRAWBERRY

	Per 12	Per 25	Per 100	Per 1000

ASPARAGUS

1 and 2-year old plants, price: per 25, \$0.50; per 100, \$1.50;
per 1000, \$10.00.

RHUBARB

Large strong plants, price: 25c each; 2 for 40c; \$2.00 per doz.

HORSERADISH

Price: roots per dozen, 25c; per 100, \$1.00.

CHIVES

Price per clump, 25c.

ORNAMENTAL SHRUBS

	Each
ALMOND, Flowering—Dwarf shrub covered with double pink rose-like flowers in early spring	\$0.50 to \$0.75
BUTTERFLY BUSH—‘Summer Lilac’—Medium height shrub with spikes of lilac colored flowers from August to frost50
CRAB, Flowering—Small ornamental trees.	
Bechtel’s—Fragrant double rose-pink flowers in May	1.50
Hopa—Dark reddish bark and foliage, reddish blossoms	2.00
CRANBERRY, Highbush—Medium height shrub with dense, brilliant green foliage. Crimson berries follow blossoms and hang on throughout the winter60
DEUTZIA—Low growing shrub; clusters of small pinkish-white flowers in early spring50
ELDER—Tall growing shrubs with large flat heads of fragrant white flowers in spring followed by large clusters of fruit.	
American—common35
Fern-leaf—finely cut foliage50
Golden—foliage a golden-yellow60
Red Berried—fruit bright red60
FORSYTHIA—Medium growing shrub with bright golden yellow flowers in early spring before leaves appear50
HYDRANGEA	
Arborescens Grandiflora—‘Hills of Snow’—Snowball like blossoms	\$0.50 to .75
Paniculata Grandiflora — Large showy panicles of creamy-white turning to pink50 to .75
Paniculata Grandiflora—Tree Form	1.25
LILACS	
White—Common25 to .50
Purple—Common25 to .50
Persian—Purple. White50
Japanese—Tree form, white blossoms	1.25
French—Named varieties. Write for further descriptions75 to 1.50
PHILADELPHUS—‘Mock Orange’—Tall growing shrubs.	
Fragrant white flowers in May and June	
Coronarius—Common50
Floreplesio—Double-flowering	1.00

Grandiflora—Large flowering75
Virginal—Semi-double; most fragrant of all	1.00
PLUM, Flowering—Ornamental tree with double light pink blossoms in early spring	1.50
QUINCE, Japanese—Medium height shrub with large bright scarlet flowers in May60
SNOWBALL, Japanese—Deep green foliage free from insects and disease. Large globular snow-white flowers	1.00
SNOWBERRY—Medium height shrub with clusters of white berries in early fall that hang on all winter25 to .50
SPIREAS	
Anthony Waterer—Hardy dwarf shrub with flat clusters of reddish flowers in July and August50
Billardii—Upright grower of medium height. Plume-like spikes of rose-pink flowers in mid-summer50
Bumalda—Semi-dwarf grower. Flat clusters of reddish flowers in mid-summer50
Prunifolia—‘True Bridal Wreath’—Earliest to bloom; small double white clustered flowers75
Van Houttei—Commonly called Bridal Wreath. Graceful arching branches completely covered with small clusters of white flowers in May to June25 to .50
SUMAC	
Cut-leaf—Fern-like foliage turning orange in fall Flowers followed by red fruits35
Stag Horn—‘Native Sumac’—Flowers in June and July in dense terminal panicles, followed by impressive red fruits. Foliage turns red in fall25 to .50
TAMARIX—Graceful shrub with feathery foliage of silver-green and long, slender racemes of pink flowers in summer. Useful for bouquets50
WEIGELIA	
Eva Rathke—Medium growing; dark red flowers in late spring75
Rosea—Similar to above but with rose-pink flowers50
BARBERRY THUNBERGI—An all-purpose shrub useful for hedges and shrubbery plantings. Foliage turns to orange and scarlet in fall; red berries in fall and winter25 to .50

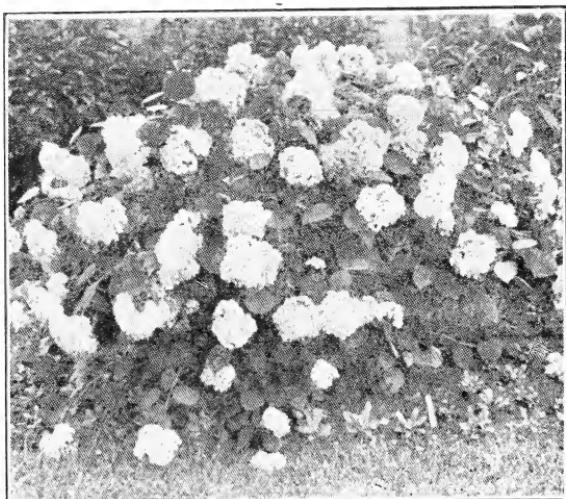

HONEYSUCKLE TATARIAN—Red. Pink and White.	
Tall fast growing shrubs for specimen or hedge purpose. Red berries after flowering in the spring.	
Pink is the favorite and the more generally used .25 to .50	
PRIVET, A. R. N.—Hardy hedge shrub. White flowers in early summer. Best for trimmed hedge purposes	\$0.25 each; \$15.00 per 100
BUCKTHORN—Dense growing bush with dark foliage. A good, prunable hedge	\$0.25 each; \$15.00 per 100

We have many other shrubs not listed above including Dogwood, Coton-easters, Button Bush, Wayfaring Tree, etc. Tell us your wants.

We can furnish Bridal Wreath, Weigelia, Hydrangea and other large specimen shrubs that will bloom this year. Balled and Burlapped. Ask for prices.

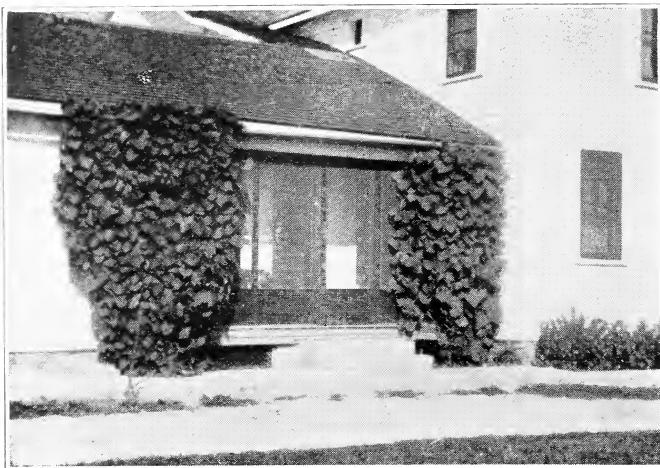

If shrubs are wanted in quantity for hedge or border purposes write for special prices.

We furnish planting plans drawn to scale for home grounds, church and school properties, parks and other town and municipal projects. We shall be glad to help you plan your plantings. Write for details.

Hydrangea (Hills of Snow)

CLIMBING VINES

Dutchman's Pipe

A very rapid grower, unusually large dense foliage. Perfectly hardy, needs no winter protection. Above cut 2 years from planting.

	Each
DUTCHMAN'S PIPE—See illustration	\$ 1.00
CLEMATIS	
Jackmani—Large purple flowers	1.00
Madame Andre—Large red flowers	1.00
Paniculata—Vigorous hardy climber. Flowers small, white and fragrant in late summer	.75
BITTERSWEET—Native twining vine with glossy foliage. Clusters of orange-crimson fruits in fall, may be used for winter house decorations	.75
SCARLET TRUMPET HONEYSUCKLE — Clusters of scarlet trumpet-shaped flowers in spring and fall. Bright red berries follow flowers	.50
WOODBINE—Rapid grower for covering trellises and arbors. Leaves deeply cut and turn to crimson in fall. Best all-purpose Ivy	.35
AMPELOPSIS ENGLEMANNI—‘English Ivy’—Climber for covering walls. Foliage deep green turning to crimson and yellow in the fall	.50

ROSES

FRAU KARL DRUSCHKI—Best pure white. Large double waxy blooms in June	\$.75
GENERAL JACQUEMINOT—Bright red75
GRUSS AN TEPLITZ—Deep crimson75
MADAME PLANTIER—White, blossoms medium small, a very profuse bloomer75
OSHKOSH BEAUTY—Beautiful pink, one of the finest, needs no winter protection75
PAUL NEYRON—Large, bright pink75
PERSIAN YELLOW75
ULRICH BRUNNER—Cherry red75
CRIMSON RAMBLER50
DOROTHY PERKINS—Pink rambler50
EXCELSA—Dark red rambler50
TAUSENDSCHOEN—‘Thousand Beauties’—Best bright pink rambler75
SETIGERA—‘Prairie Rose’ — Single rose-pink rambler. Useful for massing or border as well as a trellis and fence climber75

RUGOSA ROSES

These are the hardiest of all roses, requiring no winter protection anywhere. They bloom profusely during early summer, and after a short rest, begin blooming again and produce some blossoms until frost. Even when they are not blooming, they are beautiful because of their heavy, glossy foliage. Appropriate either for specimen or hedge planting. They are remarkably free from insects and disease.

HANSA—Double red	\$1.00
CONRAD F. MEYER—Double pink	1.00
SIR THOMAS LIPTON—Double white	1.00
F. J. GROOTENDORST — New hardy, dwarf growing Rugosa. Very profuse bloomer with clusters of small double bright red flowers. Blooms continuously. Excellent in shrub border and for rose hedge	1.00
SINGLE RUGOSAS—Red. Pink and White50

HARDY PERENNIALS

	Each
BLEEDING HEART—Old fashioned	\$.75
Fern Leaved Everblooming	.50
CANTERBURY BELLS—Cup and Saucer	.25
COLUMBINE	
Bicolor—Violet and white	.35
Farquhar's Pink—Pink in various shades	.35
Longspurred Hybrids—All shades. Mixed	.25
DELPHINIUM—‘Perennial Larkspur’ (illustrated on front cover),	
Few plants are as handsome in the garden as the Delphinium in its many varieties. They are valuable for their great variety in height, varying from one to five feet; for their great variety in shades of color, varying from white through many shades to blue and lavender to purple, with many variations and combinations in colors. They are excellent for bouquets, combining well with other flowers and also beautiful individually. They will thrive in almost any situation or soil, are easily increased and are perfectly hardy. No perennial planting is complete without some of these flowers.	
Belladonna—Light blue: tall	.25
Bellamosa—Dark blue: tall	.25
Chinese Blue—Finely cut foliage, very profuse bloomer, dwarf	.25
Chinese White	.25
French Hybrids—Double blossoms in light blue, dark blue, lavender, white and many combinations and variations	.25 to .50
DIANTHUS BARBATUS—‘Sweet William’—Various colors	.25
DIANTHUS PLUMARIUS—‘Hardy Garden Pinks’—	
Various colors	.25
FOR-GET-ME-NOTS—Blue	.25
Pink	.35
FOX GLOVE—Spikes of long tubular flowers varying from white to purple, with many shades of pink; very showy and impressive	.25
GAILLARDIA—Large yellow and crimson daisy-like flowers. Blooms all summer	.25
GYPSOPHILA—‘Baby’s Breath’—Tiny white flowers in large, airy panicles. Excellent for cutting and for drying for winter bouquets	.25
HOLLYHOCKS—Double. Rose, maroon and yellow	.25

IRIS—See page 16

LILY OF THE VALLEY25

MEMORIAL DAISY—Medium size white daisy. An early
and profuse bloomer25

PHLOX PANICULATA

Frau Anton Buchner—White	.25
Iris—Lavender, fragrant	.25
Miss Lingard—Best white	.30
Mrs. Charles Dorr—Lavender	.25
Rheinlander—Salmon pink, claret eye	.30
Rijnstroom—Bright pink, large flowering	.25
R. P. Struthers—Carmine	.25
Special French—Rose-pink	.30

POPPIES, ORIENTAL

Bracteatum—Blood red	.35
Princess Victoria Louise—Pink	.35
Royal Scarlet—Deep scarlet	.35

PYRETHRUM—‘Painted Daisy’ — Daisy-like flowers in
various shades from white to red25

RUDBECKIA—‘Purple Cone Flower’—Large daisy-like
flowers of purple with large black centers. Late
bloomer25

SHASTA DAISY—Large white daisy25

ULIGNOSUM—‘Giant White Daisy’—Tall growing. Late
bloomer25

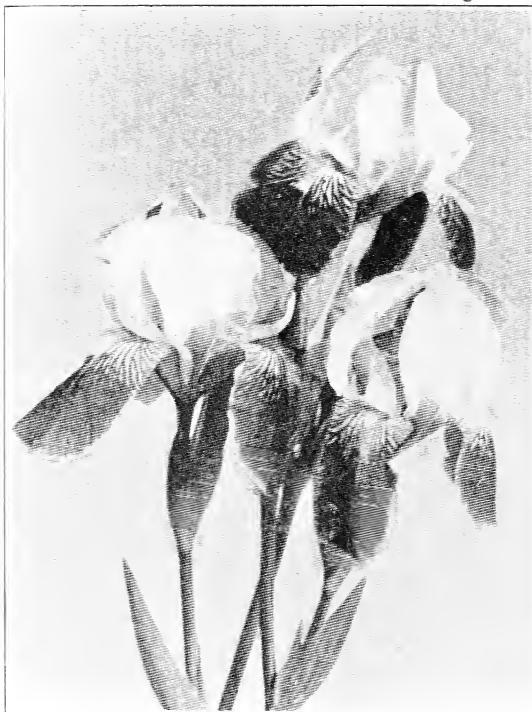

YUCCA—‘Adam’s Needle’—Evergreen sword-like foliage.
Tall flowering spikes of creamy-yellow flowers.25

We have many other perennials not listed above including
Hardy Asters, Day Lilies, Lupines, Veronica, Violas, Pentstemon,
etc. Prices quoted on request.

PERENNIAL PLANTINGS so planned that the owner may
have blossoms from early spring until late fall are a source of
much enjoyment and satisfaction. Whether this planting is
large or small it may include many of your ‘favorites’, with a
mass of color and an unfailing supply of flowers for cutting. We
shall be glad to help you plan a planting of this kind.

GERMAN IRIS

Too much cannot be said in favor of this beautiful flower. It is easily grown, multiplies rapidly and is perfectly hardy.

LOHENGRIN—Lavender pink	\$.30
LORELY—White standards, blue falls25
MADAME CHEREAU—White, penciled with lavender25
MAY QUEEN—Rose25
MONSIGNOR—Purple30
MRS. H. DARWIN—Pure white25
NIEBELUNGEN—Olive green standards, purple falls25
PALLIDA DALMATICA—Blue30
PRINCESS VICTORIA LOUISE — Yellow standards, violet falls25
PURPLE KING—Rich purple25
ROSE UNIQUE—Old rose30
SHERWIN WRIGHT—Yellow35
TWILIGHT—Lilac bronze25
LARGE CLUMPS of Blue, Yellow, Cream, White, etc., unnamed25

PEONIES

From time immemorial the Peony has been a universal favorite among flower lovers. Today it is better known and more highly thought of by the public than any other flower we have in the hardy border. What is as remarkable as anything, however, is the fact that in the face of all the new and beautiful varieties being introduced some of the old favorites such as *Officinalis Rubra* and *Festiva Maxima* have retained all their good qualities and are still among the most desirable sorts offered as well as the most reasonable in price.

No garden is complete without a few peonies. Being such an old flower and so well known, one might think everybody must have all they want by this time. This is not true however, for the demand for plants is constantly growing. Perhaps one reason for this is that the peony can get along with less care and stand more abuse than almost any other plant. When once established it is there for all time, producing a profusion of blooms year after year. There are peony plants known to be fifty years old, still blooming annually.

We list only a few of the good, moderately priced varieties covering a prolonged blooming period. We have many other named varieties and would suggest that you visit the peony fields in blooming season to make your selections. A written description of a plant and bloom no matter how minute, cannot do justice to the original.

	Each
OFFICINALIS RUBRA—Early, dark red	\$1.00
FELIX CROUSSE—Late, dark red	1.00
L'ESPERENCE—Early, pink50
MME. DUCEL—Late, pink75
FESTIVA MAXIMA—Early, white	1.00
COURONNE d'Or—Late, white75
Good Red, Pink or White, our selection50

GLADIOLI

	Per Doz.
AMERICA—Light pink	\$.50
HALLEY—Early, pink60
PANAMA—Deep pink75
PRINCE OF WALES—Early, salmon pink90
E. J. SHAYLOR—Ruffled rose pink	1.00
EVELYN KIRTLAND—Rose pink	1.00
CHICAGO WHITE—Best pure white60
SCHWABEN—Cream50
PRINCEPS—Red, very good	1.00
MIXED, Above Varieties, No. 1 size50
MIXED, Above Varieties, No. 2 size35

GERANIUMS

Fine stocky plants in the best pinks, reds and whites.

Large potted plants	Each \$0.25 to .40
---------------------------	--------------------

CANNAS

Various colors; large potted plants	Each .25
---	----------

REGAL LILY

The flowers are white, slightly suffused with pink, with a yellow center. The fragrance is fascinating, similar to the Jasmine. A splendid hardy Lily for the garden, flowering about July 1st. Well-grown bulbs often produce five to eight blooms.

Each \$0.35; 3 for \$1.00

ANNUAL FLOWER PLANTS

For Bedding, Porch and Window Boxes, Etc.

Good strong plants, grown slowly, with vigorous root system.

ASTER, the best varieties including, large Comet, Queen of the Market, late branching, etc., all colors. Seedlings, 20c per doz., Transplanting 30c per doz.

A Complete Landscape Service

PLANTING of the grounds is now considered by people of good taste to be as important a part of home-making as the building of the house itself. Just a glance at the homes in any community tells one that people now take more pride in general appearance than ever before. How much beauty and satisfaction is derived through the careful arrangement of a few well chosen trees, shrubs and flowers.

Our business is not only to grow good plants but also to help plan the planting; and where necessary to make the entire design and do all the work involved in completing the landscape. If your problem is large enough to require the help of one who has made a study of landscaping do not hesitate to call on us for the help you need. We are equipped to assume the whole or any part of the responsibility of planning and planting. You will find us ready and willing to do our part. Your satisfaction is our success.
